

BURIED DOWNSPOUTS

*Get the water
away from your home.*

Minimum Width = 4"

Minimum Slope = 1/8" / 1'

Pipe type = PVC sewer & drain
(white pipe) schedule 20, 3000 lb.
crush factor per square inch.

Solvent welded joints, no clog.

Note: Black corrugated pipe
not recommended due to easy
clogging.

ADS solves this problem with PVC
sewer and drain pipe in place
of the non-recommended but
commonly used corrugated pipe
which can become easily clogged
from leaves and roof debris.

PVC sewer and drain pipe
has solvent welded water tight
joints and a 3000 PSI crush factor.
Each downspout connection
has a clean-out access and we
bubble-up into a 6" diameter
diffuser over gravel pit.
Designed and installed to last.

**WE CORRECT
THE CAUSE NOT JUST
THE SYMPTOM!™**
